Dear David –

Thank you for providing this information to us. As the Commission completes its work, please know that the first billing cycle of May for DESC's customers is May 5, 2021. In light of your email, DESC will be required to rely upon the Commission Directive in setting its fuel rates when historically the Company has relied upon the Commission's final written order. Also, please know that DESC has provided its rate schedules and reconciliation to ORS for review and comment which is also based upon the ruling contained in the Commission Directive. Moreover, DESC is required to notify customers of the new fuel factors via bill insert and the Company is in the process of doing so based upon the Commission Directive. The purpose of this email is to simply ensure that the Commission understands that if the Commission's final written order is not consistent with the Commission Directive, then logistical issues will ensue. Thank you again for letting us know when we can expect to receive the Commission's final written order.

If you have any questions or concerns, please do not hesitate to contact us. We look forward to receiving the Commission's final written order as soon as possible.

Chad
